

AOC Summit Breakout Session 3

Agenda

- Who: Participants working in small groups by individual AOC
- Venue: Round tables for each AOC in the main room
- Outcome: Preparations for setting local restoration criteria on the fish/wildlife/habitat BUIs will be discussed and recommendations prepared
- Handouts: Fish/wildlife/habitat criteria-setting process flowchart for each AOC, State criteria setting process from the Guidance
- Support: Laptop computers, State staff and EPA staff rotating among tables

Actions:

1. Participants will review the flowchart of the process to set local criteria for the fish/wildlife/habitat BUIs. Recommendations for how that will work in each AOC will be determined.
2. Any necessary additional work remaining from Breakout Session I will be completed, taking into account resolution of issues determined in Breakout Session II.
3. On the laptop, a final set of recommended actions for all BUIs will be recorded.
4. A timeline for the next steps for each AOC, including PAC meetings for the roll-out, will be prepared for presentation at the final plenary

Notes:

For those AOCs that do not have the fish/wildlife/habitat BUIs, the discussion on removal of other BUIs and delisting the AOC can continue.
