# Great Lakes – Mississippi River Interbasin Study (GLMRIS)

- On track to submit report by January 2014 (as required by MAP-21)
- Report will include:
  - range of alternative plans, including hydroseparation
  - conceptual level of design

## Agency technical review

Policy review by HQ USACE and ASA(CW)

Submit to OMB

Submit to Congress

- We understand desire for the GLMRIS Executive Committee to receive a detailed briefing
- We are working on plan to make that happen in the coming months

- Partnership of states and federal agencies since 1996 for environmentally sustainable dredging
- Shared problems – Shared solutions
