## **I. PROJECT SCOPE**

- (A) This Contract and its appendices constitute the entire Contract between the GLC and the Grantee and may be modified only by signed written agreement between the GLC and the Grantee. If any provision of this Contract is held unenforceable, then such provision will be modified to reflect the Parties' intention. All remaining provisions of this Contract shall remain in full force and effect.
- (B) The scope of this project is limited to the activities specified in the approved project work plan and budget (Appendix A) and such activities as are authorized by the GLC under this Contract. Changes in project scope may require prior written approval in accordance with Section III, Changes, in this Contract.
- (C) By acceptance of this Contract, the Grantee commits to complete the project identified in Appendix A and all required reporting during the effective dates of this Contract and in accordance with the terms and conditions of this Contract.
- (D) This Contract is funded by the U.S. Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS) through a grant to the Great Lakes Commission. Neither the United States nor any of its departments, agencies, or employees is a party to this Contract.
- (E) Under this project, conservation practices to reduce phosphorus and sedimentation must be implemented only within the area(s) identified in Appendix A and listed on page one of this Contract. Progress and results reported under this Contract specifically relate to the practices described within Appendix A and installed in approved areas.
- (F) Grant funds provided herein cannot be used to provide additional cost-share or pay for technical assistance to plan, design, or install any conservation practice paid for in any part by farm bill programs administered by USDA-NRCS, such as EQIP, other GLRI awards, section 319 program or other federally funded programs.

## **II. CONTRACT PERIOD**

Upon signature by the Grantee, the Contract shall be effective from the Start Date until the End Date on page one, unless terminated sooner as provided in this Contract (Section XIX, Termination). The GLC shall have no responsibility to provide funding to the Grantee for project work performed except between the Start Date and the End Date specified on page one. Expenditures made by the Grantee prior to the Start Date or after the End Date of this Contract are not eligible for payment under this Contract.

## **III. CHANGES**

Prior written approval from the GLC is required for: (1) any changes to the Grant Contract, (2) material changes to the approved project work plan (Appendix A), (3) changes to the approved project budget (including transfers of funds between existing budget categories) in excess of \$5,000 or that will result in a material change to the approved project work plan, or 4) an extension of the End Date listed on page one.

All such changes must be requested by the Grantee in writing on organizational letterhead and, if approved, will be formalized by the GLC in writing in the form of a Contract Amendment. The GLC reserves the right to deny requests for changes to the Contract or to its appendices (Project Work Plan and Budget).

For budget changes totaling less than \$5,000, the Grantee does not need prior authorization from the GLC unless the changes will result in a material change to the approved project work plan (e.g., moving funds from an approved conservation practice to a different practice or activity not identified in the existing project work plan). To implement non-material budget changes less than \$5,000, the Grantee should amend its Invoice Form (Appendix B) to reflect the adjusted budget amounts in the "Budget Adjustments" column, and then clearly describe all budget changes within the Narrative Progress Report Form (Appendix D) for the next reporting period.

#### IV. GRANTEE DELIVERABLES AND REPORTING REQUIREMENTS

- (A) The Grantee shall complete all deliverables specified in Appendix A of this Contract.
- (B) Quarterly Reporting: The Grantee must complete and submit progress reports at least quarterly (i.e., every three months) following the procedures and schedule detailed below, **even if no project activity has occurred during the reporting period**. These reports shall be due fourteen days after the end of each quarter of the federal fiscal year, which runs from October 1 through September 30. Reports are due as follows:

Reporting Period	Due Date
Q1: October 1 – December 31	January 14
Q2: January 1 – March 30	April 14
Q3: April 1 – June 30	July 14
Q4: July 1 – September 30	October 14

**Your first quarterly progress report is due January 14, 2020**, with additional progress reports due every three months thereafter. The final quarterly report will be due no later than October 14, 2022. Failure to submit quarterly reports in a timely fashion may result in contract termination.

Progress report forms must include a signed (electronic or hard copy) invoice for reimbursement, a description of the conservation practice(s) installed during the quarter, and a narrative report of the project's activity. Before, during, and after pictures will also be required for the project and should be submitted with each quarterly report. Quarterly reports must report on the *entire 3-month period*, through the final day of the last month of the reporting period and should not be signed and dated prior to the end of the period.

- (C) Monthly Reporting (Optional): The Grantee may choose to submit reports and invoices on a monthly basis. Monthly reports will include the same components as above and will be due no later than fourteen days after the end of the calendar month under consideration. Monthly reports should include the *entire month* and should not be signed and dated prior to the end of the month. If the Grantee chooses to submit three separate monthly reports and invoices, then a quarterly report is not required. However, the entire three-month period needs to be reported in monthly increments for that quarter (in lieu of a single quarterly report) to stay on schedule with the quarterly reporting timeframes listed above.
- (D) Report Submittal: Quarterly report file names must include the Project Number (listed on page one) and be labeled according to the federal fiscal year and quarter using the format: FY followed by the last two digits of the federal fiscal year followed by a dash (–) followed by either Q1, Q2, Q3 or Q4 depending on the particular quarter. An example for a report submitted in the second quarter of federal fiscal year 2020 would be GLSNRP-09-19-00 - FY20-Q2. Monthly reports should be labeled with the fiscal year and month (e.g., GLSNRP-09-19-00 – FY20-April).

To submit a progress report, please use the following procedure:

1. The following three forms (provided to the Grantee as Attachments to this Grant Contract) must be completed for each report:
  - a. Invoice Form (Appendix B), signed by an Authorized Representative of the Grantee;
  - b. Load Reduction Reporting Form (Appendix C), submitted as an Excel file – no pdfs; and
  - c. Narrative Progress Report Form (Appendix D).

Additional material such as pictures and news articles can be included within the narrative report.

2. Access the program webpage at <http://keepingitontheland.net/progress-reporting/> and fill out the submittal data/information – Project Number, Contact Name, Email, and Project Title.

3. Upload each form by clicking on the Choose File buttons and finding the appropriate completed form in your files.
4. Once all forms have been selected, submit the form.

(E) Final Project Report: The Grantee must provide a Final Project Report using the final report form and instructions provided at <http://keepingitontheland.net/final-reporting/>, as well as a final Invoice Form (Appendix B) for all remaining eligible project expenses and a final Load Reduction Reporting Form (Appendix C). Final Project Report procedures for submittal are similar to those listed above for the quarterly reports. The Final Project Report, Invoice Form, and Load Reduction Reporting Form must be submitted by November 30, 2022 (the End Date listed on page one of this Contract).

If the GLC finds that the Grantee, or any of the Grantee's agents or representatives, offered or gave gratuities, favors, or gifts of monetary value to any official, employee or agent of the GLC in an attempt to secure a sub-contract or favorable treatment in awarding, amending, or making any determinations related to the performance of this Contract.

3. If the Grantee or any subcontractor, manufacturer or supplier of the Grantee appears in the register of persons engaging in unfair labor practices that is compiled by the Department of Energy, Labor, and Economic Growth or its successor.

If the Grantee fails to cure the breach within a 30-day period after receiving written notice, the GLC may, by additional written notice to the Grantee, terminate this Contract in whole or in part. Upon receiving such notice, the Grantee shall immediately discontinue all affected project activities and deliver to the GLC all information and materials the Grantee has accumulated in performing the project, whether completed or in process.

(E) If the Contract is terminated for any of the above reasons, the Grantee shall continue to be responsible and liable for the proper performance of its obligations to the date of termination, unless otherwise instructed by the written notice. The GLC shall honor requests for just and equitable compensation to the Grantee for all satisfactory and eligible work completed under this Contract through the date of termination, upon which time all outstanding reports and documents are due to the GLC and the GLC will no longer be liable to pay the Grantee for any further charges to the grant.
